

Join us virtually for the 19th Annual Meeting.

## Speakers

### Preventive care expenditures in OECD countries 2000-2019

**Kristy T. Hayes, DrPH**

Resources for the Future

### Health financing mechanisms in Lower and Middle Income Countries (LMIC)s.

**Deliana Kostova, PhD**

CDC Division of Global Health Protection

### Assessing Capacity and Spending for the FPHS

**Jason Orr, PhD, MPH**

Center for Public Health Systems

### Staffing Up Public Health: Methodological, Financial, and Practical Considerations

**Mac McCullough, PhD**

Boise State University School of Public and Population Health

Moderator:  
**Peggy A. Honoré, DHA, MHA**

LSU Health Sciences Center-  
School of Public Health and  
School of Medicine

### Session is free.

You do NOT need to be registered for APHA conference.

### RSVP by October 31

to Co-moderator: Patrick Bernet, PhD,  
Florida Atlantic University [pbernet@outlook.com](mailto:pbernet@outlook.com)

**Zoom Meeting ID: [913 6271 6100](https://lsuhealth.zoom.us/j/91362716100)**

Kristy T. Hayes,  
DrPH

**Preventive care expenditures  
in OECD countries 2000-2019**

Kristy T. Hayes has been with the Centers for Disease Control and Prevention (CDC) since 2011. She is currently serving as the Global Health Equity Officer in CDC's Center for Global Health to integrate health equity in global public health science and programs. Previously, Dr. Hayes was as Team Lead in CDC's Global Noncommunicable Diseases Branch where she played a critical role in the development and implementation of the Global Hearts Initiative, a strategic approach to reduce and control cardiovascular diseases globally. Dr. Hayes hold a bachelor's degree in accounting from St. Joseph's University in Philadelphia and received a master's degree in economics and Doctor of Public Health from Georgia State University in Atlanta.

Deliana Kostova,  
PhD

**Health financing mechanisms  
in Lower and Middle Income Countries (LMIC)s.**

Deliana Kostova is an economist with the Division of Global Health Protection at CDC, where she leads the economics team at the Office of Global Noncommunicable Diseases. Deliana holds a PhD in Economics from Emory University. Her work focuses on growing the evidence for effective health interventions in lower-income and middle-income countries.

Jason Orr,  
PhD, MPH

**Assessing Capacity  
and Spending for the FPHS**

Mr. Orr is a researcher with the Center for Public Health Systems and is experienced in policy analysis, mixed-methods research, and systems design & analysis. He holds a BS in chemical engineering and an MPH from Kansas State University and is a doctoral candidate in systems engineering at Colorado State University. He has academic interests in public health services frameworks (e.g., Foundational Public Health Services), collaborative service delivery (i.e., cross-jurisdictional or cross-sectoral collaboration), and other transformation and innovation initiatives for public health systems.

Mac McCullough,  
PhD

**Staffing Up Public Health:  
Methodological, Financial, and Practical Considerations**

Mac McCullough is associate professor and director of public health agency partnerships at the Boise State University School of Public and Population Health. His research involves examining investments in public health and social services and assessing how these investments improve population health. He co-created a data source to track spending on health and social services at the local level and has used these data to explore how community spending can influence health factors and outcomes. His teaching centers on finance, policy, and management in health care and public health. He was named a "40 Under 40 in Public Health" leader by the deBeaumont Foundation and, until 2022, was associate professor at Arizona State University and health economist for Maricopa County Public Health.
